

COUNTER SHOWCASE ELEVATOR CABINET

CORNDITIONERS AND DISPLAY CABINETS

The Counter Showcase Elevator Cabinet is versatile, easy to use and highly convenient. It slides neatly into any custom or existing concession stand millwork. Whether you add freshly popped popcorn, or pop it the night before, the exclusive Cretors Cornditioner warms and maintains optimal serving temperature for popcorn freshness.

The popcorn elevator concept, a popular option in our 20 to 60 oz poppers, provides the ability to adjust the bottom of the cabinet bin to accommodate as much or as little corn as needed. Simply drop the bottom of the bins to the lowest setting to maximize storage for peak serving hours. When business slows, raise the bottom of the bins to the middle or top settings for a partial fill. Keeping the lid on one bin while serving out of the other bin ensures the popcorn is kept fresh and crisp.

Counter Showcase Elevator Cabinet (back view)

- Two separate elevator bins with fitted lids keep popcorn fresh and crisp for serving
- Adjustable decks have three settings for multiple storage capacities
- Perforated deck screens gently sift out scrap as corn is moved about in cabinet
- Tempered safety glass surround with LED lights illuminate and merchandise the fresh popcorn
- Wide access to the elevator bin makes loading popped corn easy
- Separate corn drawers collect scrap for easy disposal
- Easy pull-out control box for maintenance
- Exclusive Cretors cornditioner system recirculates air to keep corn dry and crisp
- Digital control provides precise temperature settings
