

SNO-CONE MACHINES

Our six sno-cone machines are built in the USA with quality to last and last. Exclusive blue-tinted polycarbonate cabinet panels are used for great looks and extra protection from the sun. All models use the same powerful 1/3 HP motor with safety switch control. We finish with attention-getting graphics. Just add ice and syrup and your ready for profits! *All machines have 3-year warranty.*

crush

PORT-A-BLAST

- Economy, but hard-working. Our new cabinet-less design with slide-in ice tub. Portable, fast and effortless to use.
- Heavy-duty aluminum metal
 - Easy-slide NSF approved plastic ice tub
 - Great for high volume, 2-person service by using two tubs.
 - Removable slanted drain deck, 36" drain tube, and scoop included.
 - Optional cup dispenser available.
 - 1/3 HP motor, 500 lb/hr capacity.
 - 22"W x 17" D x 16"H

SIMPLY-A-BLAST

- Economy version of our Artic Blast model, but still heavy-duty. If price and function is more important than looks, this is your machine.
- Aluminized metal construction.
 - Removable slanted drain deck, 36" drain tube and scoop included.
 - Clear tempered glass panels.
 - Optional front access door kit.
 - 1/3 HP motor, 500 lbs per hr.
 - Optional cup dispenser available.
 - 22"W x 17" D x 16"H

ARTIC BLAST

- Our smallest cabinet machine, but full of features. Easy to move. Heavy-duty construction.
- Stainless Steel and aluminum construction.
 - Removable slanted drain deck, 36" drain tube, and scoop included.
 - Blue-tinted polycarbonate panels.
 - Clear front access door.
 - 1/3 HP motor, 500 lbs per hr.
 - Optional cup dispenser.

BLIZZARD
