Fast Freeze Down

Patented 100% Controlled Contact Flooded Evaporator –

Designed for maximum efficiency, this innovation delivers the industry's fastest freeze-down and recovery times. The result? Smaller ice crystals and the smoothest, creamiest mouthfeel.

Reduced Parts - Easy Cleaning

Single-Piece V3 Auger Design – The drive shaft and auger are combined into one solid over-molded plastic and steel piece, reducing parts, improving drink quality, cutting cleaning time, and enhancing the user experience.

Simple Control, Easy Operation

Simple and intuitive control system makes operation and viscosity adjustment easy, swift and more precise

RGB Display with Low-Level Indicator

Quickly reference machine status with an RGB display, featuring a flashing red light when the product level is low.

Backlit Virtual Merchandising

A high-visibility, illuminated display area for branding and marketing your product. Includes flavor cards, with dimensions available for custom designs.

Low-Mix Freeze Protection

Proprietary technology prevents machine freeze-ups by automatically switching to standby mode when product runs out, ensuring uninterrupted operation.
